Subject: Microsoft Settlement

As a citizen and taxpayer, I am totally in favor of bringing an end to the pointless erosion of intellectual property rights! The litigation against Microsoft not only sent our economy into a tailspin process but has also cost a fortune to taxpayers. Enough is enough! The case against Microsoft should have been thrown out in the courts years ago. And, no, I am not a stockholder. I am an avowed Constitutional American who also upholds our Bill of Rights to the nth degree.

Thank you for taking my opinion into consideration.

Sincerely,
Agnes Tillerson
